DESTINATIONS
Athens • Kamena Vourla

PROGRAM
The study of mathematics as a subject began in the 6th century BCE with the Pythagoreans who coined the term “mathematics” from the ancient Greek word (mathema). Take advantage of this opportunity to earn 6 credits while visiting the land where civilization and mathematics began. The unique and culturally rich country of Greece. Enjoy the sun and the sea while experiencing a modern yet ancient civilization.

As students interact with the local population and attend classes they will develop an appreciation not only of the development and use of science in ancient cultures, but will also be exposed to current cultures and customs. Students will visit Skiathos, one of the most popular islands in the Aegean sea; Athens, the city with the most glorious history in the world; and Delphi, the place where heaven and earth met and the most important archeological site in Greece. Students will also be able to visit some of the most famous monasteries in Meteora.

Get ready for the educational experience of a lifetime!

Please fill out the online application at http://mystudy-abroad.wsu.edu/?go=scienceigreece. You will be notified by email when you are accepted into the program. Please print yourself a copy of each section of the application for your records.

Insurance
• WSU recommends that all students traveling abroad consider purchasing a comprehensive medical and travel insurance policy.
• All students are required to purchase the International Student Identity Card. In addition to providing an internationally recognized form of identification and student discounts, the card provides minimal insurance coverage overseas. (Visit www.myisic.com/myisic/travel/insurance for a benefits summary.)
