The following scale lists the point values that will guarantee at least the grade shown. We reserve the right to be more lenient.

Course topics: linear equations, matrix algebra, determinants, eigenvalues and eigenvectors, orthogonality and least squares.

Exams are closed book, no calculator. Bring photo ID to each exam.
Homework will be assigned in lecture and collected the week after it is assigned. You are responsible for doing your own homework.

http://my.math.wsu.edu provides access to an on-line version of the Maple software package, which you will be required to use from time to time. Log on to this website using your WSU “unified sign-in” user ID and password.

Makeup Exams will be given only in extreme cases for legitimate documented reasons. If, for some legitimate reason, you cannot make it to one of the exams, please contact the instructor before the exam.

Academic integrity is expected. Please note that we take extremely seriously the University’s policy on the need for academic honesty in all of your work. Any form of dishonesty in an assignment or an examination will lead to a zero grade on the work in question and we reserve the right to give a grade of F for the course as well. If needed, Student Conduct will be contacted. The document “Standards of Conduct for Students 2009-2010” is available through the website http://www.conduct.wsu.edu

Reasonable accommodations are available for students who have a documented disability. Please notify the instructor during the first week of class of any accommodations needed for the course. Late notification may cause the requested accommodations to be unavailable. All accommodations must be approved through the Disability Resource Center (DRC) in Administration Annex 205, 335-1566 in Pullman.
