

MATH MINOR CHECKLIST

Updated November 2019. A minor in mathematics requires at least 19 semester hours of mathematics content courses including 9 hours of upper-division courses 300-level and above taken in residence at WSU. Courses required for the minor may not be taken pass/fail and a minimum 2.0 GPA is required in all courses taken for the minor.

Math 303, 330, 351, 352, 398, 425, 431, and 497 do not count towards the minor. Graduate level courses can be used with prior approval, excluding 533 and 590-level seminars.

Per academic regulation 54, transfer credit does **not** count toward the required nine credits at the 300-400 level.
