Math 172, Summer 2010

TA: Tim Melvin  
Email: tmelvin@math.wsu.edu  
Office: Neill 129  
Office Hours: Mon-Thus 12-1:15

Homework Policy

In order to receive ANY credit on a homework assignment, make sure the following are done:

1. Your name and course section number must be written on the top left of the first page of the assignment.
2. The assignment is stapled together. This means if there are more than one sections required for one assignment, they must all be stapled together. Note, I am not going to sort through your papers to find the correct homework assignment.
3. Do not turn in any papers with frayed, curly, or frilly edges. Make sure any papers you turn in have 4 straight sides.

Again, if you turn in any assignments that do not satisfy the above 3, you will receive no credit for that assignment.

If you absolutely need some extra time, I do allow homework assignments to be turned into my mailbox by Thursday at 5 pm. However, this does come with a caution. If for any reason your homework ends up in the wrong mailbox or gets ‘lost’, you will receive no credit for that assignment. I recommend that you email me if you plan on turning an assignment in my mailbox.

The only way to guarantee homework credit is to turn it in at lab or my office hours.

My mailbox is marked ‘Melvin’ and the mailboxes are right next to the Math Dept Office, Neill 103. Note, the mailboxes get locked at 5pm everyday.
