Syllabus
Math 172 Lab Section 11
Spring 2016

Lab Times
Tues 1:25 - 2:40 (CUE 209) & Thurs 1:25 - 2:40 (Neill 101W)

TA information
Enzo Wendler
Email: ewendler@math.wsu.edu
Office hours: Monday 11:00 - 1:00 (MLC)

Written Homework
There will be ten written homeworks during the course of the semester. Please consult the main
syllabus for Math 172 for the due dates. Note the written homeworks must be submitted in the
lab, and homeworks found in my mailbox or office will not be accepted. Also keep in mind that I
do not accept late homework, unless you have received permission from me in advance.

Projects
There will be five projects during the course of the semester. These will take place in lab on
Thursdays. You will have the entire lab period to write up your work and submit your project.
You may work in groups and ask me questions. Projects cannot be taken home or submitted after
the lab period.

Quizzes
There will be six unannounced quizzes throughout the semester, given during the lab period. There
will be no make-up quizzes except under special circumstances.

Grading
I will be grading all of your written homeworks, projects, and quizzes. Please make sure that
your homework and projects are neat and legible. If I cannot read your work or your answer for
a problem, I have no choice but to take off points or give you a 0 for that problem. And please
please try to use proper symbols where they are needed. (For example, where an equal sign (=) is
needed, do not put an implies sign (⇒), and vice versa. Also, try to remember to put "d\alpha" where
needed when integrating, etc.) I will take points off for consistent errors involving math symbols.
Also, please try to write some words when you are doing problems so that I know what you are
doing. If it takes me 15 minutes to figure out what you are trying to do, even if you wind up with
the correct answer, I will deduct points.

You may work with other people on the homeworks and projects, but please submit your own
work and do not copy someone else’s work. If I find homeworks or projects which are almost ex-
actly the same, all people involved will receive a 0 on those assignments. Also, if it is obvious you
are copying from a solutions manual, you will receive a 0, and you could even fail the class.

Please remember to put your name on each homework or project, otherwise I cannot record your grade.

Resources

I am available if you ever need help. Send me an email, come to my office hours, or set up an appointment with me. The Math Learning Center (MLC, Cleveland 130) is also a fantastic resource. The MLC is open Monday - Thursday 10:00 AM to 9:00 pm, Friday 10:00 AM - 5:00 PM, and Saturday 4:00 PM - 9:00 PM. Note the MLC is where I will be holding my office hours.
